Have you seen this item belonging to non-nuclear-weapon states parties to the NPT?

Please help – it's urgently needed!

Backbone

Description: Column usually consisting of 24 articulating vertebrae and 9 fused vertebrae in the sacrum and the coccyx. It should be situated in the dorsal aspect of the torso of the delegate, and allows her/him to assertively pursue the full and timely implementation of the NPT (in particular Article VI), to hold the nuclear-weapon states to account, **to confront the hypocrisy and double-dealing of the weasel states, and as necessary to take action outside the NPT** process to realize the stated intention of all NPT parties to “undertake effective measures in the direction of nuclear disarmament”.
