For undermining the NPT; obstructing efforts to ban nuclear weapons; general duplicity and insincere conduct; sundry offences against reason and logic.

## Australia

**Description:** Non-nuclear-weapon state party to the NPT. Likes to be seen as helpful, moderate and engaged. Fully supports nuclear disarmament, just as soon as it has happened. **Publicly cites its reliance on US nuclear weapons for security, has no plans to change this.** Says things like “the horrendous humanitarian consequences of nuclear weapons are precisely why deterrence has worked”.

Seems cheerfully unaware that it is acting in direct contradiction of Action 1 of the 2010 NPT Action Plan. Notionally supports the

humanitarian consequences initiative, as long as it doesn't lead to disarmament in the “near term”; in private describes it as something that “runs against our security interests”. Opposes a ban treaty on the disingenuous grounds that it would not “guarantee” elimination of nuclear weapons.

**Dangerous/violent:** Only really dangerous to self. Clumsy diplomatic manoeuvring may on occasion cause injury to those positioned nearby. **Pious yet hypocritical and tone-deaf statements may induce moderate to severe cringing in allies.**
